

## Stand in durable comfort

### Anti-Fatigue Mat

Maximising the health benefits of standing while working, the Anti-Fatigue Mat is made of the highest quality materials and ergonomically engineered to reduce fatigue on legs, back and feet while providing durable comfort at the office, laboratory, workshop, kitchen or garage.

## Features and benefits

- **Ergonomically engineered** to stimulate blood circulation and reduce fatigue on legs, back and feet by providing better pressure distribution and significantly reducing contact stress
- **Patented rubberised-gel foam** is 17mm thick and provides superior performance over thicker polyurethane foam competitors, offering unmatched tensile strength to resist tearing, an easy-to-clean waterproof and oil-resistant surface, enhanced shock absorption, and better durability for high traffic areas to ensure mat will not break down or compress over time
- **NFSI certified anti-slip surface** reduces slipping concerns and ensures mat stays in place
- **ADA-compliant bevelled edge** ensures mat will not roll up, is trip-resistant, and provides 18° angle for office chair to roll on with ease.
- **Non-toxic and flame resistant** materials are vinyl and BPA-free, supporting stricter environmental standards than most polyurethane foam competitors, and meet California Technical Bulletin 117 fire safety standards
- **Ships flat** to prevent unwanted creases and curled edges

## Why trust Kensington?

Innovation, quality, and trust have made Kensington® The Professionals' Choice™ in ergonomic accessories for more than 20 years.
