SmartFit™ Supports proper ergonomic eye-level viewing angles using data-driven research and a color-coded fitting chart to support quick and intuitive height-setting.

One-Touch Height Adjustable Monitor Arm with Built-in Gas Spring gives you total control over your monitor's position through effortless adjustment of its height, depth, and angle — with 6.7in – 19.9in (170mm – 505mm) height adjustment, +/-90° swivel and monitor rotation, and +/-90° tilt adjustment.

Counterbalance Tension Adjustment allows you to “tighten” or “loosen” the arm to accommodate a range of monitor weights with the same effortless and stability (Allen wrench included).

Heavy Duty, Stability Focused Design supports a 13in – 34in flat or curved monitor weighing up to 19.8lbs (9kg) securely. Tested to meet ANSI/BIFMA performance and safety standards, Kensington durability guarantees a more ergonomic desk setup with a proper computer monitor height for years to come.

Easy, Non-permanent Installation mountable by c-clamp [desktop thickness range: 0.39”– 3.3” (10mm-85mm)] or grommet [desktop thickness range: 0.39”–3.1” (10mm–80mm)]; grommet hole diameter 0.41”–1.97” (10.5mm – 50mm), installation is non-permanent and non-marking, for easy removal — tool kit included. A quick-release, detachable VESA plate (75mm or 100mm) makes the fully articulating arm ideal for VESA mountable monitors.

Cable Management System organizes and conceals cables while the arm lifts your external monitor up and out of the way, decluttering cables and clearing valuable desk space at once.
