## GBC® PINNACLE™ 27 LAMINATOR

A great laminator for schools, the GBC Pinnacle 27 Thermal Roll Laminator is packed with time-saving, user-friendly features. From its visual/audible warm-up alert to its built-in trimmer and more, this laminator is an easy choice for busy educators.

### FEATURES:

#### Fast Thermal Lamination

Warms up in 8-10 minutes. Laminate at speeds up to 10' per minute for exceptionally fast processing. It's quick warm-up time and auto-shut off makes it perfect for large posters and banners used frequently in education environments.

#### User-Friendly Loading

Simplify the film loading process. The lightweight AutoGrip shafts make removing and adding film easier than ever.

#### High-Quality Results

Create clear and protected projects as small as game cards and bus tags to handouts. This wide 27" laminator is a great addition to any school.
