

# Lift Your Dock off the Desktop

## Docking Station VESA Mounting Plate

If you're incorporating a Kensington Docking Station that utilizes Zero Footprint Mounting, but you have limited desktop space, the Docking Station Mounting Plate is the ideal complement. It allows you to mount the dock on the back of your VESA-compatible monitor even if it's attached to a monitor arm.

### Features & Benefits:

- **Zero Footprint Mounting** Designed to allow you to remove the docking station from your desktop, freeing up space so you can better utilize the space for other accessories or just leave the desktop uncluttered
- **VESA Compatible** Easily mount the dock to the backside of your monitor, whether it's on a stand or attached to a monitor arm. Compatible with 75mm or 100mm VESA hole layout in either an up-down or left-right orientation
- **Adjustable Placement** Specially designed slots in the mounting plate allow you to slide the docking station to your preferred position before tightening it into place
