

Gigabit speed and reliability for USB-C and Thunderbolt 3

CA1100E USB-C to Ethernet adapter

The Kensington CA1100E USB-C to Gigabit Ethernet Adapter provides a stable wired connection to the internet or intranet with a simple plug and play connection. The perfect accessory for the latest laptops without Ethernet ports.

Harnessing the speed and reliability of an Ethernet connection for the latest USB-C and Thunderbolt 3 devices, the Kensington CA1100E USB-C to Gigabit Ethernet Adapter allows you to securely transfer and download even the largest of files.

Features and benefits

- **Wired network connection** provides a direct and secure connection to the internet or LAN via a USB-C (male) connector for your device's USB-C or Thunderbolt 3 port, and an RJ45 (female) port for Ethernet
- **Gigabit transfer speeds** supports 10/100/1000 BASE-T performance
- **Plug and Play Design** uses native driver support to allow quick connections with Windows, Mac and Chrome operating systems, and USB-powered to eliminate the need for an external power source
- **USB-C and Thunderbolt 3 compatible** to accommodate the latest laptops and evolving computing environments
- **Compact and lightweight** making it an ideal travel accessory for on-the-go professionals
- **Compatibility** – Windows 8.1 and 10 or later, macOS 10.10 or later, Chrome OS 44 and above

Why choose Kensington?

Trusted by organisations around the world, Kensington has been a leader in desktop productivity solutions for nearly 35 years. With a growing lineup of accessories designed to expand the connectivity options for today's latest devices, Kensington continues to be The Professionals' Choice for reliable connections.
