

# Take Control of your Presentation

## Expert Control

Enjoy the flexibility of controlling a presentation without being restricted by the length of a laptop cable.

The integrated cursor control joystick allows the user to move the cursor without interrupting the attention of their audience

The Joystick also enables the user to open folders, start applications or browse websites at the touch of a button

### All Expert Presenters Offer:

- Cursor control mode
- 3 button presentation control (forward, back, blank screen)
- Laser pointer
- Illuminated controls
- Plug and Play USB receiver with 50m range
- Integrated USB receiver caddy slot
- On/off button
- Zippered Carry pouch
