

Protect the Internal Assets of Desktop Computers

MicroSaver® 2.0 Keyed Chassis Lock — Single Keyed

The MicroSaver 2.0 Keyed Chassis Lock with Master Key access for administrators prevents unwanted access to the sensitive data and components of devices such as a desktop computer or server. By locking down the chassis, it secures the valuable components inside, such as the hard drive, CPU and graphics card of a desktop computer.

Features & Benefits:

- **Tough 10mm Lock Head** head secures the computer cabinet to prevent theft of components and data, including the CPU, graphics card and hard drive
- **5mm Keying System** featuring patented anti-pick Hidden Pin Technology is compatible for custom solutions across different styles of Kensington locks
- **T-Bar™ Locking Technology** attaches to any device featuring the industry-standard Kensington Security Slot™
- **Single Keyed Access** allows both the user and administrators to unlock or reset locks at any time

MicroSaver® 2.0 Keyed Chassis Lock
- Single Keyed
