

Pure Color™ Media

Samba Fabric

Samba Fabric is a lightweight 5 oz/yd² satin polyester fabric. It features a bright white point that delivers photo realistic imaging with a wide color gamut, fast dry time and excellent scratch resistance. The satin finish provides a unique look that is ideal for use in backlit* display and frame systems, retail or POP signage – anywhere eye-catching visuals are required. Samba Fabric is designed for use with solvent, eco-solvent, latex and UV printers.

Golden Gate Fabric

Golden Gate is an 7.61 oz/yd² polyester fabric coated with acrylic that is perfect for making the transition from printing on PVC banners to a more sophisticated textile. It offers the look and feel of a textile with the printing ease of PVC. It is also NFPA 701 fire rated – making it fantastic for store signage, roll up and screen displays, murals, trade show graphics and POP displays in any public area. Golden Gate Fabric will reproduce brilliant colors when used with solvent, eco-solvent and latex printers.

VersaFabric™

VersaFabric is a 7.1 oz/yd², 100% polyester fabric with a specialty coating and is one of the most versatile fabrics on the market today. Where color, wrinkle resistance and drape are important, VersaFabric is an excellent choice for both indoor and outdoor applications. VersaFabric provides sharp image reproduction and brilliant color finish for dramatic trade show pop-up and soft image displays, store signage, murals, POP displays, tent sides and theatrical backdrops. Its NFPA 701 fire rating allows it to be used in public areas. This fabric is performance designed for use with most solvent, eco-solvent, latex and UV printers. VersaFabric is available in widths up to 98 inches.

Apollo Flag

Apollo Flag is a lightweight 3.2 oz/yd² polyester flag that is perfect for use with any flag system. Plus it features a paper backing that allows it to be printed without the use of a mesh printing kit. For bright colors with heavy bleed through, this is the product of choice. Apollo Flag makes dramatic messaging for indoor and outdoor applications easy. It is designed for use with solvent, eco-solvent, latex and UV printers and is available in 42", 54" and 64" widths.

Fresco AdTex™

Fresco AdTex is a lightweight 5 oz/yd² polyester textile with a removable and repositionable adhesive. It features a special inkjet coating that provides excellent imaging with solvent, eco-solvent, latex and UV-curable inks. Set your creativity free with Fresco AdTex. Create grand wall murals by tiling multiple panels together or easily install fresh, new retail graphics without worrying about wrinkles or bubbles. Even amateurs can print, contour cut and stick all kinds of fun decals to enliven any space. The bright white, matte fabric reduces glare from interior lighting; cuts cleanly, without fraying; and offers enough opacity to hide almost any surface you're covering. There is no limit to your imagination with Fresco AdTex!

Monet Canvas

Monet is a heavyweight 10 oz/yd² coated canvas with a prominent tooth that is ideal for giclée art reproductions, as well as for eye-catching POP signage, museum displays, interior decorating and store signage. This strong, yet flexible, canvas features a uniform matte texture and its specialized coating allows for vibrant, photo quality printing with a wide color gamut. Designed for use with solvent, eco-solvent, latex and UV printers, Monet's tight weave also allows it to be used with vacuum-carried flat bed UV printers.

Monet Light *NEW!

Monet Light is a medium weight 9 oz/yd² gloss polyester and cotton blend canvas. It features a bright white point that delivers photo quality images. This lighter, gloss canvas is excellent for giclée artwork and framed portraits as well as stunning presentations and interior displays. Designed for use with solvent, latex and UV printers. Meets NFPA 701 fire rating.

Mambo Fabric

Mambo is a 9 oz/yd², 100% polyester fabric featuring a unique coating that provides for the highest color brilliance and the deepest, richest blacks. Its distinctive characteristics make it an outstanding choice for a wide variety of indoor and outdoor displays where the look and feel of fabric will enhance and add depth to the image. Make a splash with store signage, backlit displays*, murals, trade show graphics, POP displays, tent sides, outdoor banners for festivals or concerts and theatrical backdrops using Mambo Fabric. This product is designed for printing with solvent, eco-solvent, latex and UV printers. Meets NFPA 701 fire rating.

* Samba and Mambo print and back light very nicely with a variety of inks. However, no direct print fabric can match the densities achieved through the sublimation process, most notably in areas of deep colors and blacks. This is especially true of eco-solvent inks and should be considered when creating backlit applications.
