

USBC Connectivity is Here

USB-C Adapter and Hub

USB-C ports can perform multiple functions with just one cable, from charging devices to transferring data at high speeds, syncing photos and music, and output for 4K video.

Kensington has introduced the CA1000 USB-C to USB-A Adapter and CH1000 USB-C 4-Port Hub to allow users to easily integrate a USB-C device with their current accessories.

**CA1000 USB-C to
USB-A Adapter**
K33992WW

- **SuperSpeed Data Transfer**—Using USB 3.1 Gen 1 technology, the adapter supports transfer speeds up to 5 Gbps, which is 10 times faster than USB 2.0. It also allows for faster syncing of photos and music.
- **Supports Up to 3A Charging**—Depending on the host device, the battery on a USB-C smartphone or tablet will charge up in the process with the available power up to 3 AMPs.
- **Plug & Play**—The adapter can simply be plugged into the device and it is automatically ready to go without the need for an additional power source or driver downloads.
- **USB-C Reversible Connector**—Adapter supports charging up to 3 Amps. This is dependant upon the host device configured to deliver power from USB-C.
- **Premium Construction**—Halogen-free material provides better prevention of overheating and is environmentally friendly while the metal-injection molded connector is stronger to avoid accidental bending.

**CH1000 USB-C
4-Port Hub**
K33995WW

- **SuperSpeed Data Transfer**—Using USB 3.1 Gen 1 technology, the hub supports transfer speeds up to 5 Gbps, which is 10 times faster than USB 2.0.
- **1 USB-C Port**—Provides a port to plug in a USB-C accessory like a smartphone or tablet, allowing users to make the most of limited port availability on a host device.
- **3 USB-A Ports**—Expand a device's productivity capabilities by plugging traditional USB peripherals such as a mouse, keyboard or flash drive into any of these ports.
- **Plug & Play**—The expansion hub simply plugs into a device and it's automatically ready to go with no need for an additional power source or driver downloads.
- **Compact Design**—The small footprint makes it highly portable so users can easily pack it up and take it with them wherever they go.
