

# 60W USB 3.0 Power Splitter for SD4700P

Part No. K38310EU

EAN code: 5028252594332

The Kensington 60W USB 3.0 Power Splitter for SD4700P provides a power delivery option for USB 3.0 laptops. This is a productive and cost-effective solution for environments with mixed deployments or shared workspaces, including hot-desking and hoteling. While the SD4700P Universal USB-C and USB 3.0 Docking Station already provides Power Delivery (PD) for USB-C enabled devices supporting PD, the 60W USB 3.0 Power Splitter allows for a truly universal solution that will power your USB 3.0 enabled laptops through the same docking station – providing your business with a scalable and standardised docking solution as you cross over from USB 3.0 to USB-C enabled mobile devices.

## FEATURES AND BENEFITS

- **60W laptop power** uses the power supply from the SD4700P to provide power to USB 3.0 enabled laptops with 20V power inputs (20V/60W)
- **8 power tip adapters** can be dongle-connected for quick access and provide connectivity options for Dell, HP, Lenovo and other leading manufacturers (retention rings included)
- **1m laptop cable** provides ideal length for various connection needs and accommodates multiple power tips to be tethered to the cable at one time via four power adapter retention rings – providing a convenient solution for mixed deployments or shared workspaces
- **0.5m power plug cable** connects to the SD4700P dock and supports a tidy and tangle-free connection
