

Orbit® Fusion™ Wireless Trackball

Part Number: K72363WW | UPC Code: 085896 72363 9

Fuse trackball control with innovative comfort.

Experience first-in-class trackball innovation. Orbit® Fusion™ Wireless Trackball provides an opportunity to experience ergonomist approved comfort, the superior control and precision benefits of a finger-operated trackball, and a patented scroll ring – within the familiar shape of a mouse. Let your hand fuse with innovative comfort and control and preferred track and scroll.

- **Premium Precision & Control** – The high-quality laser tracking sensor, 40mm finger-operated trackball and a simple DPI switch provide smooth cursor control, optimal precision and easy cursor speed transitions.
- **Patented Scroll Ring** – The unique finger-operated scroll ring provides a more precise, intuitive and comfortable scrolling experience.
- **Ergonomist Approved Design** – All-day comfort is provided through a sculpted mouse-like design to improve palm, wrist, forearm and shoulder position with less hand movement.
- **Plug & Play or Customize** – Experience the plug and play default settings or use KensingtonWorks™ software to set pointer and scrolling options and personalize 5 programmable buttons to tackle your common tasks with one touch.
- **Universal Compatibility** – Connects to Windows and macOS devices via a 2.4GHz nano receiver that stows inside the trackball when not in use. The included USB-A to USB-C adapter works for laptops with limited or no USB-A ports.
- **Triple DPI Switch** – Easily adjust the cursor speed to fit your needs by selecting the appropriate DPI level (400/400-800/800-1500) – lower DPI for precision editing and higher DPI for word processing or casual browsing.
